

## Truman Seeks Filibuster Curb

### Asks Simple Majority Ban Long Talks

Washington, March 3—(AP)—President Truman said today that he favors breaking up Senate filibusters by a simple majority vote—a step which southern Democrats denounced as a meaning "the end of free debate."

An immediate storm of protest rolled up on Capitol Hill in the wake of Mr. Truman's remark at his news conference. It came in the midst of a bitter four-day-old Senate filibuster against a proposed rules change curbing filibusters.

Under this proposal, backed by a number of Northern Democrats and Republicans, debate could be cut short any time two thirds of the senators present so voted.

**CIO Favors Simple Majority**  
The CIO and some other organizations would go farther—limiting talk by a simple majority—and today the President disclosed that he personally favors that course too.

Even some administration lieutenants on Capitol Hill bucked at going along. Senate majority leader Lucas (D-Ill.) told newsmen: "I regret that I am compelled to disagree with my chief."

And on the Senate floor, Senator Russell (D-Ga.) shouted that the President's statement makes it clear Mr. Truman wants to "control the senate."

Similarly, Senator Byrd (D-Va.) derided Mr. Truman's suggestion. The Virginia said it only makes "those of us who are fighting this thing more determined than ever."

Senator Holland (D-Fla.), leading the day's filibuster attack, told the Senate that passage of a majority cloture (debate limit) rule, as favored by Mr. Truman, would "destroy the prestige of the Senate."

**Will Soon Run Course**  
Mr. Truman told his news conference he believes the Senate battle over the filibuster will run its course soon and permit passage of his legislative program.

Describing himself as a veteran of many a filibuster during his senate days—but always on the side trying to break it—Mr. Truman said if he had anything to do with the present fight, he would personally favor a simple majority vote to end debate.

Lucas told newsmen flatly he could not go along with the President's proposal. "I feel that a constitutional majority is proper," he said.

A constitutional majority requires 59 of the 96 senators. A simple majority would be one more than half the number of senators present on the floor.

Meanwhile, Dixie orators breezed through the fourth day of their "anti-rag rule" fight, elated over fresh signs of apparent indecision in the opposite camp.

**Holds Floor Five Hours**  
Senator Holland held the floor for a total of 4 hours and 52 minutes when he sat down at 5:15 p.m., the longest single speech so far—and remarked dead-pan:

"I don't think there's been the slightest semblance of a filibuster up to this point."

### GIVES MAN 60 DAYS FOR KILLING DOG

Muncie, Ind., March 3—(AP)—A judge whose dog sat beside him imposed today a 60-day jail sentence and gave a stinging reprimand to a man who pleaded guilty to killing a small dog brutally.

Judge Mario Peroni told Conley Beaty, 28, that if such a thing happened to his dog he would be "tempted, at least, to forget the law."

The judge then suspended 60 days of the sentence pending good behavior. Judge Peroni is blind. His dog is a "seeing eye" dog.

### Says Cotton Hurt Georgia More Than Sherman Ever Did

Washington, March 3—(AP)—Southern-born Louis Bromfield denounced the South's king cotton today as an impostor which is despoiling Dixie and doing "more damage than General Sherman ever did."

The novelist-farmer drew shouts from southern legislators as he tore into the south's agriculture and general economy in free-swinging terms.

"King Cotton has injured the south, economically and agriculturally, more than anything else," Bromfield said.

"And corn is just as bad." Testifying before the House agriculture committee, Bromfield spoke out against proposed measures to repeal federal restrictions on oleomargarine.

Any encouragement to the margarine industry, he said, would stimulate production of soybeans and cotton. Both are used in margarine, and both are soil-depleting crops, he said.

Bromfield declared that cotton alone has done more harm to Georgia than Sherman's troops on their march to sea.

The witness said he operates a model farm near Lucas, Ohio, and was born in Mississippi.

### House Of Commons Okays Big British Peacetime Defense

London, March 3—(AP)—The House of Commons approved tonight Britain's biggest peacetime defense fund after Defense Minister A. V. Alexander said it was needed "so long as Russia maintains her veto on peace and security."

The budget for 1949-50 was estimated at 759,860,000 pounds (\$3,039,400,000).

The vote was 227 to 3. The House beat down 291 to 155 a Conservative amendment contending the money is not being spent wisely.

Churchill was among the sponsors of the amendment. In debate, Alexander said the five-nation Brussels Alliance is making military plans for "any sudden emergency."

### Find Wreckage Of Lost Plane

Del Rio, Tex., March 3—(AP)—The charred wreckage of a missing C-47 air force plane was found today in Texas, far off its California-to-Mexico course. All nine persons aboard were reported killed.

## Tucker Takes Back Seat In Operation Of His Company

Chicago, March 3—(AP)—Preston Tucker took a back seat in the Tucker rear-engine automobile business today. Up in front were two trustees, appointed to see if they could get the concern rolling.

Federal Judge Michael L. Igoe appointed the trustees for the Tucker corporation. Tucker remained as president of the automobile company, but the trustees are responsible for whatever happens next.

Both trustees are old hands at the receivership business. They are John Chatz, an attorney, and Aaron Colnon, a real estate man. Judge Igoe gave them until May 2 to report on progress.

Duty of the trustees under the federal bankruptcy act is to reorganize the company, which has been unable to get into production during the last two years. More than \$20,000,000 has been raised from various sources, including the public, to start the firm.

In a voluntary petition for reorganization, the company said it had assets of \$14,434,380.88 and liabilities of \$1,643,175.96 at Dec. 31. But, it added, "the true value of the assets is not readily realizable."

**Priests Dig Graves  
As Gravediggers  
Go Out On Strike**

New York, March 3—(AP)—With Francis Cardinal Spellman as overseer, 100 young seminarians and priests dug graves today in a strike-bound cemetery where 600 bodies are buried.

Union gravediggers picketed the Calvary cemetery in Queens, largest Catholic burial ground in the area, as the volunteer gravediggers entered the cemetery and went to work.

The cardinal, who remained at the cemetery all day in a raw March wind but did no digging, said at the end of the day's work that he was well pleased with results. He said about 90 graves were dug.

Bitter comments came from some of the regular gravediggers, who are all Catholics, and a union official called the 100 seminarians and priests strikebreakers.

But one picket tipped his hat as the cardinal and the amateur gravediggers passed through the cemetery gates.

The cardinal said "I hoped we'd never have to do it but we'll remain here until our task is done."

Cardinal Spellman has termed excessive the demand of the gravediggers, members of the CIO United Cemetery Workers, for a five-day week at the same pay—\$59.40 a week—which they now get for six days.

**Russians Order  
Blocked Mission  
To Leave U.S. Zone**

Frankfurt, Germany, Friday, March 4—(AP)—The Russians bowed today to American pressure and ordered a blocked Soviet reparations mission to leave Frankfurt.

The Russians struck back quickly at a two-day siege imposed by U. S. Army authorities by ordering U. S. grave registration men out of the Soviet occupation zone at once.

A Russian news agency dispatch said graves registration personnel in the Sonderhausen and Parchim districts had already left. Their numbers were not given.

## Ask Germans Spread Power

### KNIFE BLADE CARRIED IN SHOULDER 20 YEARS

Knoxville, Tenn., March 3—(AP)—Police Chief Joe Kinsey has found out what's been causing that pain in his shoulder for 20 years.

An X-ray showed a knife blade embedded in the bone. The chief recalled that many years ago when he was a recruit patrolman, a man turned on him with a knife. He said he was stabbed in the shoulder but had no idea the blade remained in the bone.

### Confesses Killing Millionaire In New Orleans Hotel

New Orleans, March 3—(AP)—Police said a young Kentuckian admitted under "truth serum" tonight that he beat and strangled millionaire James Mahoney in his French quarter hotel room the night of Feb. 21.

Acting police superintendent Joseph Scheuringer said Louis Eugene Hoover told him and other witnesses: "I patted him and patted him several times. The only thing I used was my fist. I gave him a rabbit punch with my hand on the back of the head. That might have broken his neck."

Mahoney's nude and bloody body was found in a French quarter (the Monteleone) hotel the morning of Feb. 22. The head was battered and the neck broken, with a towel wrapped around it.

Scheuringer quoted the 25-year-old Louisville, Ky., parking lot attendant as saying that the next thing he remembered "was this 'ellow's moaning."

"I went into the bathroom and got a towel and first tried to shove it in Mahoney's mouth," the superintendent quoted Hoover as saying. He added Hoover told him that when he couldn't stuff it in the Bristol, Va. Tenn. man's mouth, "he twisted it around Mahoney's neck."

### Dutch Recognize New Indonesian Representatives

Batavia, Java, March 3—(AP)—The Netherlands government today recognized a new group to represent former Republican territory at the Hague conference on Indonesian statehood March 12.

Republican leaders, held by the Dutch on the island of Bangka, are reported to have refused to attend unless they regain their former capital at Jogjakarta, now occupied by Dutch troops.

The Dutch announcement of recognition of the new group said it is not desirable to set up an actual state in the Republican area at present. It explained, however, that it was necessary for the 7,500,000 people in the territory "to have a voice in the administration of their own territory and in political discussions with the central government."

The Indonesian representatives were not named. The announcement said the Dutch consider the group a "temporary representative body" for the area.

### Episcopal Rector Refuses To Resign Post In Brooklyn

New York, March 3—(AP)—A Protestant Episcopal rector refused today to resign from his church, as directed by his bishop, "as long as my congregation desires me to stay."

The parish membership, which the rector says is heavily in his favor, is to meet Monday night to review the case.

The rector, the Rev. Dr. John Howard Melish, 74, who has held his post 45 years, termed the ouster issue "a struggle to maintain democracy and freedom of speech in the church."

He was ordered removed yesterday by the Rt. Rev. James P. De Wolfe, bishop of Long Island.

### Big 3 Change Constitution In 10 Places

Frankfurt, Germany, March 3—(AP)—The three western military governors called today for a decentralization of powers in the forthcoming western German republic and excluded Berlin from the federal regime.

Western German political leaders assailed the changes, suggested by the military governors in the proposed constitution for the republic. One of them, Carlo Schmid, told newsmen in Bonn that the Social Democratic party cannot accept the allies' suggestions in their present form.

The constitution was drafted by an all-German parliamentary council in Bonn. In all the American, British and French authorities suggested 19 changes.

**Change Division Of Legislature**  
Besides the question of Western Berlin's status, the changes dealt with electoral machinery and the division of legislative power in such fields as public welfare, civil and criminal law, courts and war damage. The rights and powers of the individual states in Western Germany would be strengthened in relation to the projected central government.

The governors, American Gen. Lucius D. Clay, British Gen. Sir Brian Robertson and French Gen. Pierre Koenig, have informed the Germans also that they wanted the draft constitution revised to reduce the central government's financial powers.

Members of the Bonn council said the military governors' recommendations represent a "complete victory" for the French, who fear a revival of German nationalism.

**Object To Berlin As State**  
The French objected to the inclusion of western Berlin as the 12th state in the New Republic. They contended such an action would serve as official recognition by the United States, Britain and France that the four-power allied council in Berlin has ceased to exist.

Actually, the council has not functioned since the Russians pulled out last spring.

Ernst Reuter, Western Berlin's anti-communist mayor, said the military governors' decision is "not very polite or very wise." He pointed out that, in the municipal election last December, Western Berliners voted overwhelmingly in favor of the west and against communism.

Jacob Kaiser, chairman of Berlin's Christian Democratic party, told newsmen in Bonn the action on Berlin was a "disheartening blow" to the Germans in that city.

Taegliche Rundschau, official Soviet newspaper in Berlin, charged the western allies were rushing to complete the Western German Republic as part of their "war preparations."

**Ask Distinguished  
Flying Crosses  
For Globe Fliers**

Fort Worth, Tex., March 3—(AP)—Distinguished Flying Crosses were recommended today for the crew that flew the "Lucky Lady II" on the first non-stop flight around the world.

Maj. Gen. Roger M. Ramey, commander of the Eighth Air Force, said "undoubtedly the award will be approved quickly and the decorations probably will be presented at Tuscon in a couple of weeks."

The 14-man crew yesterday landed the B-50 bomber at Carswell air base, 94 hours and one minute after taking off. They covered more than 23,000 miles and refueled four times in mid-air.

The bomber itself today was flown to Tinker air base at Oklahoma City for a thorough analysis and inspection.

## R. R. Management, Labor Continue Settlement Talks

Chicago, March 3—(AP)—Railroad management and labor committees continued their conferences today on a five-day week for 1,000,000 non-operating workers.

These are yardmen, clerks, station hands, porters, shop workers and others not employed directly in operating or serving trains.

A presidential fact-finding board has recommended that they be placed on a five-day, 40-hour week instead of the present six-day 48-hour week effective Sept. 1. The conferees are trying to work out an agreement on application of the shorter week to a 24-hour-a-day, seven-days-a-week industry. The shorter week would be at no reduction in pay.

Another recommendation of the board was a seven cents an hour wage increase, retroactive to Oct. 1, 1948. Brotherhood officials estimated the average straight-time pay for members of their unions at present is \$1.176 an hour.

### January Weather Blamed For Rise In Traffic Deaths

Chicago, March 3—(AP)—Mild January weather in the eastern part of the nation was blamed today by the National Safety Council for a sharp rise in the automobile death rate.

The pleasant days resulted in comparatively large numbers of motorists using the highways, and drivers were not as careful as they usually are under more hazardous conditions, the council said.

The January toll for the United States was 2,350 compared with 2,160 for January, 1948—an eight per cent increase.

Despite the increase in deaths, 321 cities and towns reported absence of auto deaths during January.

Oklahoma City was the largest to report no deaths during January. In the 50,000 to 100,000 population class, Pasadena, Calif., Stockton, Calif., and Rockford, Ill., all reported no deaths, as did Jackson, Mich., Battle Creek, Mich., and Joliet, Ill., in the 25,000 to 50,000 class.

### President Blasts U.S. Red Leaders As 'Traitors'

Washington, March 3—(AP)—President Truman today blasted New York communist party leaders as "traitors" for their statement indicating that in case of a Russo-American war they would oppose the U. S. war effort.

The informal statement came at a news conference crammed with other important developments. They included:

The expected announcement of the resignation of James V. Forrestal as secretary of defense and the selection of Louis A. Johnson, former assistant secretary of war, to succeed him. The changes take effect March 31.

A prediction that the senate filibuster would run its course and the administration's legislative program would be enacted.

A statement that he will recommend that credit control be extended beyond their expiration date in June 30. He said the price spiral is going both ways and the government is trying to meet the situation with ceilings on the upward climbs and a floor under the downward movements.

### TO COMPLETE PAYMENT OF GIs' DIVIDENDS

Washington, March 3—(AP)—Payment of dividends on nearly \$20,000,000 in insurance policies taken out by World War II veterans will be completed by June 30, 1950, Veterans Administrator Carl R. Ray, Jr., said today.

Every veteran who paid an insurance premium will be entitled to a dividend, Gray said. The size of individual dividends, however, will depend on how much a veteran has paid in.

## Johnson New Defense Head

Pictured above is Louis Johnson, appointed by Truman today to fill the post of Secretary of Defense, vacated by James V. Forrestal who resigned yesterday. Johnson will take office on March 19, pending approval of the appointment by the Senate.

### Dewey Asks Trial Of 'Lonely Hearts' Killers Be In N. Y.

Albany, N. Y., March 3—(AP)—Gov. Thomas E. Dewey signed extradition papers tonight for a "lonely hearts" pair arrested in Michigan in connection with the slaying of two women and a baby girl.

Dewey's action was the first step in a move to try and send swarthy Raymond M. Fernandez, 34, and his fat girl friend, Martha Beck, 29, to the electric chair.

Fernandez and Mrs. Beck now are in Michigan where the severest penalty for murder is life imprisonment. Dewey's office said Charles J. Hilbrandt of the Nassau county police department would take the extradition requests to Michigan to return the pair.

The papers listed Fernandez' names as Raymond Fernandez Martin Pares and gave an alias for Mrs. Beck of Martha Martin.

They are accused here of killing Mrs. Janet Fay, a middle-aged Albany, N. Y., woman. Michigan warrants also accuse them of the murders of Mrs. Delphine Downing, a comely 29-year-old Byron City, Mich., widow, and her 21-month-old daughter, Rainell.

### Mother And Nine Children Burned To Death In Home

Muskegon, Mich., March 3—(AP)—Eleven persons lost their lives today when an explosion and fire trapped them in their crowded, flimsy home north of here.

The victims included a poverty-stricken mother, nine of her 13 children and a roomer.

They were among the 23 persons who perished today in fires around the nation and in Canada. Eight of the victims died in a flash fire in Halifax, Nova Scotia. In a farm-house blaze in New York state, four lost their lives.

The latest victim was 21-year-old Ward Glover, who died in Muskegon's Hackley hospital after a valiant attempt to save his mother from their blazing home.

The Michigan mother and her children were burned to death in the little resort community of Lakewood, 12 miles north of Muskegon.

Their home, a ramshackle frame structure, went up in roaring flames a few moments after a stove exploded while Mrs. Maude Glover, 46, was making breakfast.

The youngest of her children were still sleeping; the elder ones crowded in the kitchen to help. When the flames struck, only two in the family escaped—and their burns were critical.

### Truman Okays Resignation Of Forrestal

Washington, March 3—(AP)—President Truman today accepted the resignation of Secretary of Defense James V. Forrestal and chose Louis A. Johnson, who was army mobilizer on the eve of World War II, for the key post.

If confirmed by the Senate, as is expected, Johnson will take over from Forrestal on March 31.

The 58-year-old Johnson, a West Virginia and Washington lawyer, becomes head man in the pentagon in the midst of America's most gigantic peacetime military preparations.

**Fund Raiser For Truman**  
As assistant secretary of war under Franklin D. Roosevelt he directed the planning for army mobilization a decade ago. Last fall, he was fund raiser for the Truman campaign for the presidency.

Forrestal, first man to head up the army, navy and air force under the unification act, was the last remaining member of the Roosevelt cabinet.

President Truman's decision to put a new man in Forrestal's place had long been rumored. However, as is customary in such cases, the White House today made public correspondence in which Forrestal urged acceptance of his resignation for "urgent personal considerations" and the president "reluctantly" acquiesced.

Forrestal's letter reviewed his government career of eight and one half years, first as undersecretary and secretary of the navy under Roosevelt, and for the past 18 months as secretary of defense.

**Lauds Armed Services**  
He paid "profound tribute" to the armed services for their work during the war and since. He also expressed appreciation for the president's support "in the difficult initial period of the process of unification of the armed forces."

Praising Forrestal highly, Mr. Truman wrote him: "Your entire service has been characterized by vision, foresight, and a broad appreciation of the vital importance of relating our military potential to the requirements of our national policy."

The reports that Forrestal would be replaced grew insistent right after the election in which he made no stumping tour for Mr. Truman as some of his cabinet colleagues did. Associates said later, however, that the president had asked the secretaries of defense and state to stay out of the campaign.

**Chairman Of Demo Finance**  
Johnson, on the other hand, was chairman of the Democratic finance committee in the campaign. As such he drew credit for most of the financial aid scraped together for the Truman cause when many another Democrat was without hope of victory.

Johnson inherits a \$15,000,000 defense program, a vast armory of America stemming from difficulties with Russia. He takes over from a man foremost in advocating a "tough" policy in dealing with communist expansion.

The new secretary is handed the difficult job of achieving harmony under the unification program, which has been one of Forrestal's greatest power over the three armed services. He has referred to "many arguments and disagreements."

**Hoover Group Backs Him**  
Johnson will have the backing of a Hoover commission report on government reorganization to support him if he chooses to pursue Forrestal's course. The commission has urged congress to make the secretaries of army, navy and air force exclusively responsible to the defense secretary, cutting off their right of appeal to the president.

Johnson served as assistant secretary under Secretary of War Harry H. Woodring. He was named by President Roosevelt in 1937, and resigned in 1946 when Harry L. Stimson became war secretary.

Johnson had a big hand in lining up expansion of the army and getting plans in shape for industry to swing onto a war footing. Friends said that Johnson was urged on by a belief that war was inevitable.

### WINS SUIT AGAINST BANK

Louisville, Ky., March 3—(AP)—Eugene J. Strauss told a jury in Jefferson circuit court today he fell over a pile of money bags on the vault floor of a bank here in December, 1947, and hurt himself.

The jury awarded him judgment for \$7,460 against the Security bank.

BE A POLITICAL TRIAL BALLOON

President Truman has hinted that he may "make another tour around the country to tell the people how their government is getting on." If he does, the trip is bound to be quite different from his surprising and triumphant campaign journey of last fall.

This time he won't have a "do-nothing 80th Congress" as a target. This time it is a Congress led by his own party. Thus it is a less vulnerable target than the one that took all those paralyzing Truman haymakers. This one will require more stylish and scientific punching.

Yet Mr. Truman is still throwing haymakers in his speech at the Jefferson-Jackson Day dinner. "All we have on our side," he said, "is the people." He made clear his belief that he and the people are being fought in Congress by "the special interests," who are represented by lobbyists, pressure groups, controlled editorial pages, columnists and commentators, and full-page ads.

If Mr. Truman really believes that, then he is telling the people, in effect, that they made a futile gesture in replacing a Republican with a Democratic leadership in Congress.

When Mr. Truman was charging a Republican leadership in Congress with being the vassals of big business, he was greeted by encouraging shouts of "Give 'em hell, Harry!" But similar charges against a Democratic leadership might bring questions of "Well, why aren't you doing something about it?" And it might be somewhat embarrassing to make an answer.

Mr. Truman is the head of both the government and the Democratic Party. If, in that position, he had to answer that he was unable to persuade or force his fellow Democrats in Congress away from the side of the "special interests" to the side of "the people," it would be rather an admission of weakness. It would also suggest that, since he had no control over Congress, his party could hardly prove itself the party of "the people," as advertised.

Mr. Truman is irked with Congress because it does not see eye to eye with him on new legislation and the timetable of its enactment. The Democratic congressmen, no less than the President, are pledged to carry out their party's platform promises. But since Congress is an equal, not a subordinate, branch of government, the Democratic leadership doubtless feels that it has the right to differ with Mr. Truman on details.

Since Mr. Truman has proved himself an astute politician with a remarkable sensitive feeling for public sentiment, he probably has already planned his next move. It seems doubtful to us that he would ask the people's permission for a leave from his exacting duties in order to stump the country with a message that his Democratic Congress is as "do-nothing" as its Republican predecessor. And it is doubtful that he, as a loyal party man, would embarrass the party further by pressing this line of argument.

After all, the differences between Mr. Truman and his colleagues on Capitol Hill are largely of degree rather than kind. The President surely knows this. He also knows how keenly any Congress feels about its equality and independence, and how bitterly it resents any slurs on his integrity.

So it may well be that he Jefferson-Jackson charges were in the nature of a trial balloon. Mr. Truman, we believe, is too smart a man and too much of a realist to go on tour in the rather unbelievable role of a shining knight engaging single-handed the dragon of corruption.

Hard, white ice in a continuous column comes out of a new ice-making machine. The new method freezes the water from the inside outward. In conventional ice-making, the outside is frozen first.

The program was in charge of Mrs. Ernest Harding and included two recitations, Clo Ann Tendick and Jimmy Connolly; vocal solo, Donna Brogdon; accordion selections, Mrs. Martin Connolly; piano solo, Charlotte Sunderland; open discussion; movie or "Illinois Schools"; prayer by the Rev. San Diego, Calif.—(AP)—A new ultra-high-speed electronic system, which its designer claims will enable printing speeds to go up to a million words a minute, has been developed by an airplane company designer.

Joseph T. McNaney calls his device the Electrontype. He explains it as a system of printing made possible by a new cathode ray tube design. It employs high-speed photography at the receiver, and also high-speed film developing processes.

At the transmitter, a message is recorded on magnetic tape, or photographic film, in the form of a pair of coded impulses per message character. The receiver converts the coded impulses into complete characters (letters, digits, etc.) on the screen of the cathode tube.

The device moves a photographic film in front of the tube's screen allowing a succession of lines of complete message characters to be exposed on the film.

The electrontype, according to McNaney, does not require synchronization between transmitter and receiver.

McNaney, employed in the Convair radio and electronic laboratory, says he conceived his new method of transmission more than 10 years ago, and obtained patents on its principal features in 1942. He is a native of Baltimore, Md., and came here two years ago.

## ANTI-HUNT BILL

London.—(AP)—Foxhunters of England are raising a hue and cry against bills in Parliament to outlaw their pastime. Some of them voted a protest, 600 to 12, in an indignation meeting here. Cruel words were spoken against the League Against Cruel Sports—which favors such legislation.

The Duke of Beaufort, master of the Beaufort hunt, denied foxhunting is cruel.

"The fox," he said, has always a five-to-one chance of getting away."

## Moose on Loose Finds City Pretty

A strange sight, even in the Alaskan city of Anchorage, is a moose wandering around on city streets. This venturesome animal caused much commotion in Anchorage, and townspeople tried to get him out of town with snowballs and lighted flares. But he liked it and wouldn't budge. Later, police shot him, claiming he lunged at children. (Photo by NEA-Acme photographer Dick Chase.)

## 'Jolly Old' Butlin Woos U.S. in Bahamas

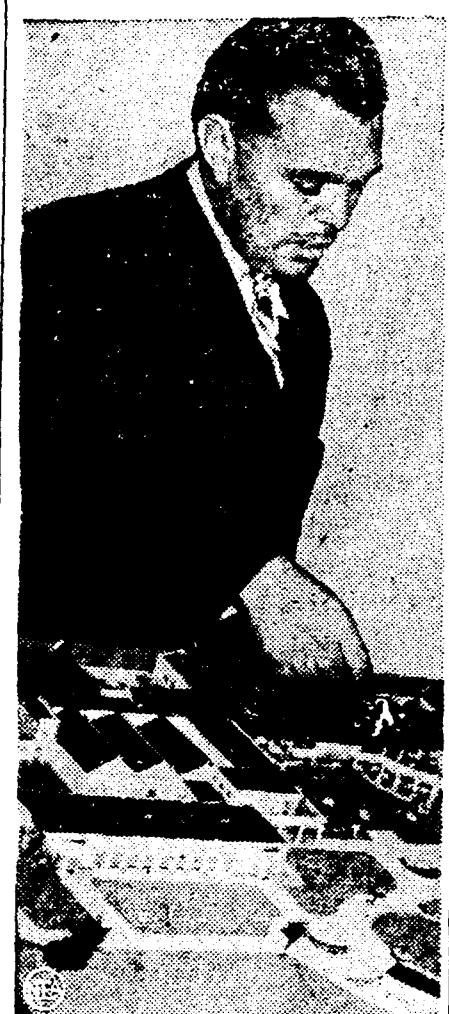

By Epsie Kinard  
NEA Staff Correspondent  
Hamilton, Bermuda — (NEA) — England's holiday king, William (Jolly Old) Butlin, is getting ready to lure the vacation dollars of middle-income Americans to the Bahamas, traditional playground of millionaires.

A South African-born Canadian, who made his millions from a cult of six holiday villages in the British Isles (\$30 a week, no extras), Butlin is transforming the primitive island of Grand Bahama, 60 miles off Florida, into his seventh "Jolly Old

Butlin's" vacation camp. Grand Bahama is as close as he could get to the U.S. mainland. "Hearing my English friends boast of their exports and all the dollars they were earning, I thought I would come over here and help take some dollars off you Americans," he explained. He already is getting some of those dollars at Bermuda's Princess Hotel, which recently reopened under Butlin's midas touch after being closed for 10 years. Butlin, at 49, caters to the luxury trade in three other hotels he owns

or directs besides the Princess, but his Grand Bahamas venture, which will open in mid-January, 1950, is patterned after the "jolly old" camp ventures in England.

For a weekly rate of \$100, "all-in," he will offer year-round vacations on an island thus far uninhabited by white men, except for construction crews he has flown in to clear roads, build beaches, and erect modern cottages and recreation halls.

By "all-in," Butlin means room, board, free accommodations for children two years old or younger, diaper service, cycling, boating, tennis, deep-sea fishing, movies, and similar attractions.

A one-time Barker at an English seaside amusement park, he put "organized fun" into the vacations of British low-income people. At a "Jolly Old Butlin" camp, holidays include organized cycling, swimming, dancing, cricket, golf, beauty contests, and athletic competition. In one of his eight planes, he visits each camp at least once every 10 days and sends thousands of letters to vacationers who wear the blue Butlin badges.

At Grand Bahama, he hopes to attract the personnel of big American companies with the idea of staggering vacations over a year-round period instead of crowding them into the summer season.

To get his vacationers to the island, which is one hour by plane, three by boat from Palm Beach, Butlin is building a private landing strip for charter planes he expects to operate from New York at \$50 per person, round trip.

Although he's already in business in the Bahamas with the exclusive Fort Montague Hotel, he intends to cut the present Bahamas vacation rate in half with his new venture, a practice that goes back to his early days as a Barker.

"I asked less money for my stall attractions than my competitors," he said, "but turnover was more."

The turnover at Jolly Old Great Bahama will be in U.S. dollars only.

## Moore Resigns As Scott County Superintendent

Winchester—Tony Moore, superintendent of Scott county schools since April, 1948, has resigned that position, according to announcement at the circuit clerk's office here Thursday.

His resignation followed the filing of a suit last week by the State of Illinois in which Moore was asked to show qualifications for the office. Moore was elected in 1946, but did not assume office until 1948 after a legal controversy in which P. L. Blansett claimed to be the duly elected superintendent of schools. Blansett served during the period from 1946 to 1948.

The Air Force's new research plane, Model 7002, prepares for a test flight at Muroc Air Force Base, Calif. The plane is equipped with a "Delta Wing," which is swept back at a 60-degree angle, compared to the 35-degree maximum on any other plane. tion—from your total income before what's left is taxed. You get a \$600 exemption for:

1. Yourself, always, whether single or married, when you file a return.
2. Your wife, if she had no income or files a return jointly with you.
3. Each dependent.

A word on exemptions for husbands and wives:

When a wife has any income of her own, no matter how small, no exemption can be claimed for her unless she files her own return, separately or jointly with her husband.

Remember: a wife is not classified as a dependent. That's why the rules covering exemptions for dependents are a little different.

**Age Isn't Factor**

A dependent is any close relative of any age—age doesn't count—who got more than half his support from you in 1948 and had less than \$500 income of his own.

You can still claim the full \$600 exemption for a dependent even though he turned over to you his less-than-\$500 income. And you don't have to report that income of his.

But—you can't claim as a dependent anyone who had \$500 or more income even though he had more than half his support from you.

And note this, because it's a silly spot in the law:

A person who had \$600 or more income, must file his own return and claim his own exemption.

If he had less than \$600 exemption he doesn't have to file a return. But—a person who had \$500 or more income, even though less than \$600, can't be claimed as a dependent. He's in a kind of no-man's land.

**\$600 Extra If Blind**

Besides the usual \$600 exemption you get for a wife, you get an extra \$600 off for her if she is blind, plus another \$600 if she reached 65 on or before (but not after) Dec. 31, 1948.

But you get only the usual \$600 exemption for a dependent, and nothing extra if he is blind or over 65.

These are the close relatives you can claim as dependents:

Your child or grandchild; a step-child but not his children; a legally adopted child; a brother, sister, step-brother, step-sister; your parents, grandparents or other ancestors; step-father, step-mother; aunts, uncles, nieces, nephews, all related by blood; and your in-laws—father-in-law, mother-in-law, brother-in-law, daughter-in-law.

You can claim as a dependent for the full year a child born to you as late as Dec. 31, 1948.

**Can't Claim Unborn Child**

And—you can claim as a dependent for the full year a child born to you anytime in 1948 even though it died a moment after birth. If it was born alive, you can claim it as a dependent. You can't claim an unborn child or one born dead.

What of some other dependent who died during 1948: you can claim a full exemption for him even though he died on Jan. 1, 1948, so long as he was truly a dependent during the part of the year he was alive.

You don't have to do arithmetic with \$600 exemptions if you use form 1040 or the 1040 short-form. They're all figured in the tax table used with those forms. You simply note in the proper place that you're claiming so many exemptions.

In using the long-form, you subtract your total exemptions from your income before applying the tax to what's then left of the income.

**Speech Students Give Program At Optimist Dinner**

Four talented students in the Jacksonville high school speech department entertained the Optimist club with readings at the noon luncheon Wednesday. The program was given by Mary Elledge, Betty Walker, Joann Winstead and George Fox. They are coached by Miss Fergene Goddin, director of the speech department.

Miss Elledge and George Fox won first honors in serious and humorous readings, respectively, at the district speech contest last Saturday at Petersburg. They will present their school in the sectional meet at Lincoln.

The students were introduced by Ralph Heiss, program chairman. Attorney M. Brooks Byus presided at

the club meeting at the Dunlap hotel.

A report of the Optimist committee which is sponsoring an educational tour of Springfield by all eighth grade students of the public and parochial schools was submitted by Attorney Andrew Orniston.

Tentative dates for the tour in three sections are April 12, 19 and 26, when eighth grade pupils will be taken by Jacksonville Trailway buses to Springfield, where they will visit the state capitol and Lincoln shrines. Each bus will be accompanied by two teachers and a member of the club.

Club committees are working out details of the tour with principals and teachers of each school.

**RAILROAD BOOM FRETS BRITISH TOWN**

Hainault, England.—(P)—The city council has voted a protest to the government against the booming voice (you can hear it two miles away) which shatters the dawn here daily.

The voice comes from a loud-speaker at the Central Line railroad depot promptly at 5 a. m. It is used by a traffic director to get the locomotives moved out of their sheds in proper order. The council will take it up with the Ministry of Transport, which runs the nationalized railroads.

**Disabled Vet Gets New Home**

Kalispell, Mont. — (AP) — Bernard Stender, a totally disabled war veteran, has moved into a new house built entirely with funds and labor donated by fellow townsmen.

Stender, a Navy deep sea diver, suffered a broken back in 1943 when a pile driver fell on him while working underwater on the ill-fated Normandie in New York harbor. After a long tour of government hospitals he returned to his native Kalispell three years ago.

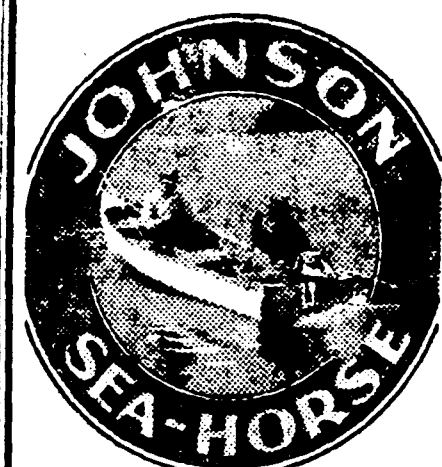

A citizens' homebuilding committee collected about \$7,000 including \$2,500 from the B.P.O. Elks Club. Craftsmen contributed their labor and Mayor Dave S. Cameron donated the home site.

Extra large rooms were built to permit easy movement of Stender's wheelchair. An elevator was provided for traveling between floors and all interior arrangements were designed to accommodate a wheelchair patient. Stender is able to use his arms but not his legs.

A floor-level attached garage was provided for his late model car equipped with special operating devices.

Alderman James Costello, 831 Routh street, was injured Wednesday night when his automobile struck a bridge on U. S. Route 67, several miles north of the city, as he was returning from a business trip to several towns to the north. Costello, who travels for the Jen-

kinson Grocer Co., said he dozed at the wheel and lost control of his car, which was badly damaged. The alderman first went to his home after the accident, believing that he was not hurt, but after swelling developed in his neck he was taken to Our Saviour's hospital and attended by Dr. Vincent Lenth. Alderman Costello has probable internal injuries. He remained at the hospital for X-ray examination and treatment. His automobile was taken to the Brummett garage.

## Auto Backs Over 2 Year Old Boy; No Bones Broken

Jerseville—Lloyd Marshall, two-year-old son of Mr. and Mrs. Elmer Marshall, was taken to the office of a Jerseville physician about 9 o'clock Wednesday morning suffering from injuries sustained when a car backed over him at the home of his parents.

The Marshall family had started moving from the farm on which they had been living to one south-west of Otterville which was purchased recently by Marshall.

An uncle of the child, Howard Weaver, was assisting the family in the work. He got into his car to go on an errand and started backing the auto out of the driveway where it had been parked. He had not noticed the child who had followed him and had halted at the rear of the automobile. The little boy was knocked down and the rear wheel of the car is believed to have passed over his legs.

Examination revealed that no fractures had been sustained the injuries being confined to major bruises of the muscles of the legs.

Chicago, March 3.—(P)—The sheep market featured today's trading in livestock with lambs reaching \$27.00, the highest on record for March and the most paid here since Oct. 1. Ewes at \$13.25 were the highest since last May. The market generally was strong to 50 cents higher.

Hogs were steady to 25 cents higher, the top of \$22.25 being paid only sparingly. Most good and choice butcher hogs sold from \$19.00 to \$22.00 and sows made \$16.00 to \$18.50.

Cattle were mostly steady to 50 cents higher but vealers were steady to \$1.00 lower. Choice steers topped at \$28.50, medium to low-choice offerings fetching \$21.50 to \$26.25. Choice heifers took \$26.50 and medium to good kinds \$21.50 to \$25.00.

Beef cows topped at \$19.00, sausage bulls at \$23.25, and vealers at \$29.00. Most vealers were worth \$28.00 and below.

GRAIN PRICES DRIFT  
LOWER; CORN LOSES  
MOST TERRITORY

Chicago, March 3.—(P)—A slow drift into lower territory featured market dealings in grains on the board of trade today. Corn lost the most territory while new crop deliveries held steady most of the session. Trading was light.

Soybeans dropped around 2 cents at times while lard eased. Selling in soybeans was tied in with a decline of 1 cent a pound in crude soybean oil. Buyers offered 113 cents a pound, basis Decatur, Ill., compared with 12 cents yesterday.

Corn purchases on a to-arrive basis ran above 100,000 bushels, which was fairly large but less than on the two previous days. The Kansas City office of the Commodity Credit Corporation was willing to bid a little higher than yesterday for cash wheat for export shipment.

Receipts were: wheat 6 cars, corn 175, oats 10 and soybeans 19.

Wheat closed 1 cent lower to 1-1/2 higher, May \$1.31 1/2, oats were 1-1/2 lower, May 65 1/2, rye was 1/2 lower, May \$1.30, soybeans were 1-1/2 lower, March \$2.33-23 1/2, and lard was 5 to 12 cents a hundred pounds lower, March \$12.05.

The Vatican estimates the number of U. S. Catholics increased from about 22,000,000 in 1939 to about 26,000,000 in 1949.

New York Stock  
Market

New York, March 3.—(P)—The stock market barely stirred today in one of the slowest sessions in months.

Gains and losses, mostly in small fractions, maintained a close balance.

Business was unusually light, with turnover at the rate of only 600,000 shares for the full trading day. This would compare with Wednesday's slim 600,000.

Traders more or less ignored the news, which included fresh and pronounced weakness in the London stock market and modification of consumer credit control.

Railroad stocks did comparatively poorly but nowhere was there any sign of aggressive trading.

Higher most of the time were Wrigley, Abbott Laboratories, Gulf States Utilities, Youngstown sheet, General Motors, Chrysler, U. S. Rubber, Distillers Corp., Consolidated Natural Gas and Owens-Illinois.

Lower a good part of the day were U. S. Steel, Goodrich, Douglas Aircraft, N. Y. Central, Illinois Central, Standard Oil (N.J.), International Paper, Air Reduction and J. I. Case. Corporate bonds moved narrowly. U. S. governments held steady in over-the-counter dealings.

CHICAGO'S HILL IS

Chicago.—(P)—The sledding always has been tough for Chicago kids. The land is as flat as a traffic cop's feet. So to give the youngsters a place to slide, the city built a hill on the lake front.

## SIDE GLANCES

"I'm sorry, Jones, but my wife asked me for a raise first this morning!"

## Training Briefs

New York, March 3.—(P)—Joe DiMaggio and his aching heel headed back to the New York Yankees' training camp today after a quick visit to his Baltimore doctor.

The verdict: He's okay. No medical attention required. The right heel, from which a bone spur was removed last fall, flared up after the Yankee Clipper's first workout Tuesday. Taking no chances with their star, the Yankees sent him winging back to Dr. George Bennett.

After an inspection the doctor said: "There is nothing to do about Joe's heel at this time. I believe he and the Yankee officials became unduly alarmed over the reaction to the first workout."

DiMaggio came on to New York and was to leave this morning by plane for St. Petersburg, Fla. The star outfielder reported that the heel pained most of the time and "really hurt when I run." Dr. Bennett advised special care but said he was optimistic about Joe's chances of being in good shape in time to open the season.

Les Fleming, Pittsburgh infielder, signed his contract. All of the Pirates now have agreed to terms. Eddie Stanky agreed to the Boston Braves' offer leaving the National League champions with four on the unsatisfied list. Andy Seminick, Philadelphia catcher, signed and cut the Phils' holdouts to two.

With intra-squad games scheduled for this weekend in many camps, the managers stepped up drills and will continue to increase the pace. Warm weather returned to the Florida camps which had opened Tuesday with the thermometer in the 50's.

Outfielder Pete Reiser, who moved from Brooklyn to the Boston Braves during the winter, provided a fancy slugging exhibition at Bradenton, Fla., where one of his drives carried 380 feet. . . . Slugger Ralph Kiner was still among the missing in the Pittsburgh camp at San Bernardino, Calif., although he has signed his contract. . . . Pitcher Harry Gumbert and the Cincinnati Reds were still disagreeing on terms. Hank Sawyer, the Reds' home run hitter, took his first workout yesterday.

The Boston Red Sox had a look at Tex Hughson, Boo Ferriss and Mickey Harris, three question-mark pitchers, and they looked loose and limber. . . . Sam Chapman reported to the Philadelphia Athletics without glasses and said the doctors told him his vision is perfect. . . . The Chicago Cubs have put off intra-squad games for at least a week. . . . Former Yankee Bill Bevens showed up at the Pasadena, Calif., camp of the Chicago White Sox minus 42 pounds. He now weighs 218. . . . Gerry Priddy remained the St. Louis Browns' only holdout.

The world champion Cleveland Indians began two-day drills. . . . observers at the New York Giants' Phoenix camp got spring fever and started comparing rookie pitcher Ted Breidischmidt with Bobby Feller. . . . Brooklyn split its squad into four units with camp games due to start Saturday. . . . Detroit, which has yet to hold batting practice, will work on hunting today. . . . Gil Coan can have a regular outfielder's job with Washington if he hits .280, manager Joe Kuhel promised. Coan hit .232 last year.

Approximately 3,200 passengers ride each week on an average elevator, a total one-fourth greater than the passengers carried each trip by the Queen Elizabeth, world's largest steamship.

Illini Cagers Have  
Broken 2 Western  
Conference Marks

Chicago, March 3.—(P)—Illinois' powerhouse basketball team already has broken two Western Conference records and are within 26 points of a third mark with one game still remaining on its schedule.

The league-leading Illini, with 10 victories in 11 Big Nine games, play their finale at Michigan (6-4) next Monday Runnerup Minnesota (9-2) holder of the best field goal shooting average in a game, winds up its season at Wisconsin Saturday.

Four league records already have been broken, the Big Nine service bureau disclosed today. They are: Most points in one game, two teams—159 (Illinois) (91), Indiana, (68) Feb. 28 surpassing previous record of 152 set by Illinois (98) vs Purdue (54) 1948.

Most free throws one game: 31 Illinois vs. Indiana Feb. 28, surpassing previous record of 26 set by Wisconsin against Iowa, 1948.

Best field goal shooting average, one game: 431, Minnesota (28 of 65) vs Purdue Jan. 15, surpassing previous record of 418 set by Ohio State (28 of 67) vs Michigan, 1948. Illinois also broke previous record Feb. 26 with a 423 mark (33 of 78) against Northwestern.

Most free throws one season: 209 by Purdue, surpassing previous record of 181 set by Wisconsin in 1947. Illinois, with 730 points already scored in Big Nine play, needs only 26 points against Michigan to surpass the present conference team scoring mark of 725 set by Illinois "Whiz Kids" in 1943.

Salvation Army workers around the world use a total of 81 different languages in their work.

In 1948, the Salvation Army reports, it supplied 22,785,427 meals and 9,294,358 beds.

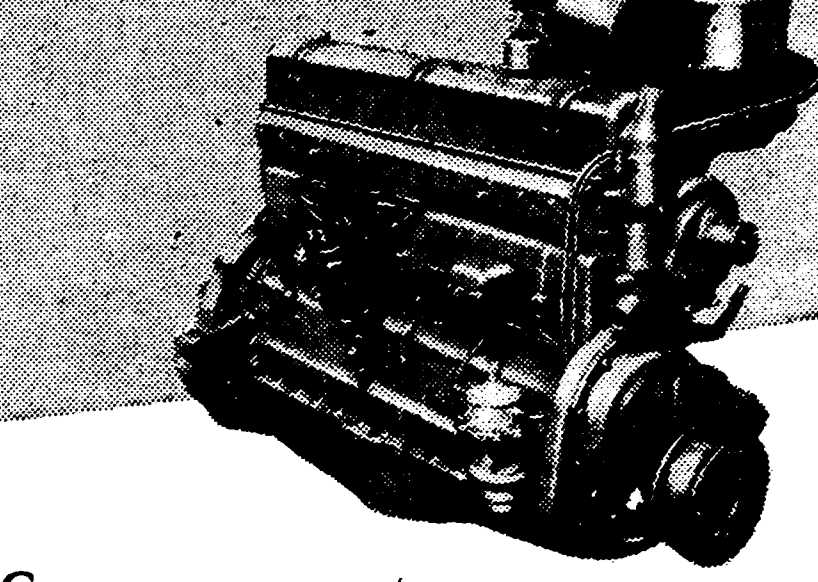

Chicago Lady Loses 25 Lbs.  
With This Home Recipe

Mrs. Mabel E. Lucas, 7721 Eberhart Ave., Chicago, Ill., writes, "Rennel is all I have lost 25 lbs. in 10 weeks. I am in tip top shape. I have lost an average of 5 lbs. a week and feel fine. Rennel is the original grapefruit juice recipe for taking off ugly fat. It's simple. Just go to your druggist and ask for 4 ounces of liquid Rennel. Pour the contents into a pint bottle—add enough grapefruit juice to fill the bottle. Then take just two tablespoons a day. That's all there is to it. If the very first bottle doesn't show you the simple, easy way to lose bulky fat and help regain slender, more graceful curves—if you're double pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles; just return the empty bottle to the manufacturer for your money back. You need never know a hungry moment while taking Rennel—no starvation diet—no printed diet list to buy—no expensive vitamins to fortify you against weakness while going hungry, for you WON'T be hungry."

# Crimsons, Chambersburg In Regional Finals Tonight

## Browns Say They Will Take Eviction Battle With Cards To Court

St. Louis, March 3.—(P)—A sizzling dispute between the St. Louis Browns and the Cardinals burned hot and strong today. The Browns announced they are going to court with an eviction suit April 1—and it won't be April Fool's.

It will be a suit to throw the Cardinals out of Sportsman's Park, which the Browns own, and which the American and National league clubs have shared for 28 years.

The "no fooling" remark came from Bill Dewitt, president of the Browns, who wants to raise the rent.

A. B. Chandler, commissioner of baseball, has stepped in and called a hearing in the matter after first saying it was none of his business, but he hasn't announced the time and place.

Chandler is in Florida and so is the Cardinals president, Fred M. Saigh, Jr., at the Redbird training camp at St. Petersburg.

The fuss has been in the open for three days. Saigh, in a cold race, said at the outset he expected to settle it in court, in a legal battle over validity of the Cardinals lease.

The Browns have seized on what Saigh called "a legal technicality."

This is the legal background: In 1937 the Cardinals obtained a 14-year lease, with a 10-year renewal option, at \$35,000 a year. The two clubs were to share the cost of upkeep from season to season.

The technicality involves some changes in names of the Cardinals organization. When Sam Breadon had it, he called it the St. Louis National Baseball Club. When Bob Hannegan and Saigh bought him out, late in 1947, they changed it to National Sports, Inc.

Now Dewitt contends the Cardinals "attempted to assign" the park lease to National Sports, Inc., without the

## Winchester Rolls To Win Over Nebo In Pittsfield Meet

## Roodhouse Meets Hosts In Finals At Jerseyville

Jerseyville.—Mason Campbell's Roodhouse Railroaders moved into the championship tilt of the Jerseyville regional against the home team when they whipped Grafton 41 to 36 in the last semi-final bout of the meet last night.

The championship game is set for 8 p.m. this evening.

Benner and Ballard led scoring for Roodhouse with 11 tallies each last night. Nairn's 14 counters was high for Grafton.

## Connie Mack Says Athletics Can Win 1949 AL Pennant

West Palm Beach, Fla., March 3.—(P)—Connie Mack thinks his Philadelphia Athletics can win the 1949 American league pennant "if we all do our jobs."

The 86-year-old owner-manager of the A's made the prediction at a training camp pep talk.

"We're all here to do a job," Mack told his players, "and if we all do our jobs then we can be American league champions."

Connie hasn't been so optimistic in nearly 40 years. The last time the A's capped the pennant was in 1931.

Mack's boys were fourth last season, and were in the pennant fight right up to the final month of the campaign.

Mack predicted the world champion on his 86th birthday last Dec. 23. On Cleveland Indians would win the American league flag again—and very easily.

Now, after only three full days of spring training, he's looking at the A's hopefully through rose-colored glasses.

## Minnesota Might Tie Illini In Big Nine Race 'If'

Chicago, March 3.—(P)—With a possible share of the Big Nine basketball title at stake, runner-up Minnesota closes its conference campaign against seventh-place Wisconsin at Madison, Wis., Saturday night.

A triumph will give the Gophers a final record of 10 wins and two setbacks and a chance to tie first-place Illinois (10-1) if the rampaging Illini should stumble against defending champion Michigan at Ann Arbor, Mich., Monday night.

In Saturday night's only other league game, Iowa (2-9) will close its season at home against Michigan (6-4). A defeat would tumble the Hawkeyes into a cellar deadlock with Northwestern which already has closed its league season with a 2-10 record.

Ohio State, which finished Big Nine competition with a 6-6 listing, and Northwestern taper off the season with DePaul and Notre Dame respectively in a non-conference double-header at Chicago Stadium Saturday night.

Finished for the season are Purdue and Indiana, each with a 6-6 conference record. These two and Ohio State are tied for fourth place in a final four-way tie for third spot, should Michigan lose to Iowa and Illinois.

## EDDIE JACKSON SCORES FOR CHAMBERSBURG

Eddie Jackson leaps high into the air to net another two points for the Red Raiders of Chambersburg high school in their Wednesday night first-round bout with the Waverly Scotties.

Jackson scored 23 points to lead his team to a 59 to 45 victory over the Waverly crew. Winners of the Arenzville district, the little river town boasts a high school enrollment of 24 pupils. Six girls are in school and five are cheer leaders. Every boy plays basketball with the exception of two, who serve as managers.

## Three Blueboy Cagers Honored In Selections To CCI All-Star Five

### 32 Of 25,000 Golden Glovers Go Into Finals

Chicago, March 3.—(P)—Thirty-two amateur boxers, survivors of some 25,000 lads who started punching their way along the Golden Gloves trail early this year, will battle in the semi-finals and finals of the 22nd annual championship tournament in the Chicago stadium tomorrow night.

The young swingers will sport the boxing regalia of 15 cities. They are the best as their weight of 312 aspirants from 39 centers in 26 states who invaded Chicago last week for three nights of preliminaries.

A capacity crowd of 20,000 is expected to sit in on the proceedings. There will be eight semi-final bouts, to be followed by eight title contests in all eight weight classes. The winners will win places on the team which will invade New York's Madison Square Garden for the inter-city matches March 28.

## Hogan Undergoes Surgery To Relieve Lung Blood Clot

El Paso, Tex., March 3.—(P)—Famed pro golfer Ben Hogan was operated on early tonight to delieve a blood clot on his lung.

The operation was performed by Dr. Alton Ochsmier, New Orleans specialist who flew here today.

Chuck Witlock, sports editor of the El Paso Times, said the operation was started about 5:30 p.m. (CST).

He said it had not been determined if the operation had been completed. Hogan was badly injured in an automobile-bus accident near Van Horn, Tex., Feb. 22. Since then he has been in Hotel Dieu hospital.

The blood clot developed on his lungs last night, it was reported.

A previous blood clot had been reported in one of the golfer's legs.

Hogan's condition had been reportedly good until today.

Dr. Ochsmier arrived here this afternoon and went almost immediately to the hospital.

He had been called to advise whether an operation would be necessary.

Royal Hogan, Ben's brother, earlier in the day said the nation's foremost pro golfer was considered in a serious but not critical condition.

## Lindsay, Doran Lead In South Atlantic Tourney

Ormond Beach, Fla., March 3.—(P)—Two girls who set the pace in the annual South Atlantic Women's golf tournament qualifying round continued their stellar play today in winning their second-round matches.

They were Marjorie Lindsay of Decatur, Ill., and Claire Doran of Cleveland, Ohio, who tied medalist honors with 75.

Miss Lindsay defeated Betty McKinnon of Mt. Pleasant, Texas, and Miss Doran beat Dorothy Kieley of Long Beach, Cal. They won by the same score, 5 and 3.

In the two other matches today, Patricia O'Sullivan of Orange, Conn., eastern titleholder, defeated Pat Devany of Grose Ile, Mich., 4 and 3, while Carol Diring of Tiffin, Ohio, the present titleholder here, eliminated Mrs. Maurice Glick of Baltimore, Md., by the same score.

Although Miss Lindsay today was opposed by Miss McKinnon, who set a women's course record of 69 yesterday, her victory was not unexpected in view of her record in Florida competition this winter.

## FISH BY BULLDOZER

Sidney, Australia.—(P)—An Australian recently caught twelve large trout with a bulldozer. He was Mr. H. Lewis, of Maldon, Victoria. While scooping gravel from the Loddon River during the construction of a new reservoir, he saw the trout. Some of them weighed up to 4 pounds. A few were damaged but all were edible.

## JHS Raps ISD 51-40 In Semi-Final Contest; Burgers Win 53 To 49

Bob Kraushaar's Jacksonville high school Crimson five caught Spike Wilson's I.S.D. quintet off guard last night in the semi-finals of the local regional and carried off a 51 to 40 win over the favored westend outfit. Chambersburg, winner of the Arenzville district, wrapped up a narrow 53-49 victory over the Virginia Red Raiders in the championship tilt at 8:30 this evening.

The Kraushaarsmen opened up with a red-hot basket barrage in the opening of the first bout, and bounced into a 6-2 lead immediately after the initial tip-off. Both fives squared off after this first-minute spurt, and settled down to some steady basketball. The Crimsons continued to pour in some deadly long shots, while I.S.D. relied mostly on their ball working skill to stay in the game. The first stanza ended with the score tied at 15-all.

Williams, Bussey lead J.H.S.

The Jaks stayed hot through the second inning, and led by Bill Williams and Gerald Bussey, stormed into a 30 to 24 advantage at the intermission. Kraushaar set up a tricky offense that apparently stymied the Tiger crew very effectively.

Play continued on the same pitch through the third frame, with the J.H.S. aggregation stretching their lead to 39-32 at the rest period. Trotter, southpaw forward on the Crimson five, contributed two buckets to the winning total in this third canto, and with Williams and Bussey still running a temperature, made things look black for the Wilsonmen.

**Crimsons Shot Long Ones**

The Jacksonville high bunch dumped in some amazing long shots in the last frame, while Billy Yates seemed to be the only I.S.D. cager able to counteract the potent Kraushaar-built offense. Gerald Bussey and Bill Williams scored three times each with long shots and free throws to wind up the bout 51 to 40 Jacksonville.

**Chambersburg Raps Virginia**

Eddie Jackson scored eight times in the first quarter, as the Chambersburg aggregation stormed into a 10-2 lead in the first four minutes, and then slacked up to hold only a 16-12 advantage at the end of the

initial eight minutes of play.

The Red Raiders turned on plenty of speed in the second inning, and with Ed Jackson shooting and Hap Ham passing, pulled out in front 32 to 26 at the 10-minute break. The winners treated the crowd to a nice exhibition of race-horse basketball throughout the bout, and simply ran the Virginia five off the court in taking this win.

Officials called the barest minimum of fouls in the first half of this tilt. Chambersburg committed only 2 offenses, while Virginia was called 4 times for unnecessary roughness. It was a very clean, fast ball game the entire 32 minutes.

**Burgers Stretch Lead**

Every Red Raider tallied in the third quarter, and the Burgers stretched their lead to 3 points; in this frame. The Burgers were still mainly dependent on their fast-break for scoring power, and fell back in a tight zone on the defense. Walton, Virginia guard, made things uncomfortable for Atwoods lads, as he stood in front of the zone and sniped with a one-handed shot that connected more than it missed. The stocky Red Head guard garnered 22 tallies during the evening's fun, and all of them were on long shots.

Chambersburg slacked off in the last quarter, and lost 4 points of their lead, but still managed to stay on the long end of that 53 to 49 final score, and advance to the championship go against Jacksonville high school this evening. Eddie Jackson led the winning offensive with 18 counters.

## Big Nine Group To Visit Michigan State In April

Chicago, March 3.—(P)—The special committee investigating Michigan State College's projected Big Nine membership will visit the East Lansing, Mich., institution in April to study first hand Spartan facilities and athletic policies.

The three-member committee is composed of Prof. Kenneth Little of Wisconsin, Commissioner K. L. "Tug" Wilson and Dean Paul J. Blommers of Iowa.

After its visit, the group will report to a full meeting of the "acolyte" representatives next May when Michigan State's formal admission probably will be announced.

The conference last December unanimously voted the Spartan school a membership, making it the "Big Ten" again, but stipulated that official acceptance would await investigation by the three-man committee. This generally was regarded as only a formality.

Little said the inspection tour probably would be the second week in April. The committee, Little said in a statement released through the commissioner's office, was desirous of meeting MSC officials as soon as possible. Mid-April, however, was the earliest all three committees can make the trip, Little said.

## Japan Gets Allied Books

Tokyo.—(P)—The first dozen allied books under the occupation translation program have reached bookstores throughout Japan.

Two, Lloyd Douglas' "The Robe," and former Ambassador Joseph C. Grew's "Ten Years in Japan," were sold out before they reached the shelves.

Advance orders for the Grew book exceeded \$92,000, and for Douglas' novel 10,000.

In all, 40 translations of allied books have been cleared by the translation committee of the Japan publishers association. All are to reach the shops in a few weeks.

Several hundred others have been cleared either on a non-royalty or blocked yen basis.

## Lesnevich KO's Eatman In 21 Seconds Of First

Newark, N. J., March 3.—(P)—Gus Lesnevich knocked out Eldridge Eatman in 21 seconds of the first round tonight underscoring his bid for two world titles.

The former light heavyweight champion threw every blow of the brief contest. He had Eatman on his knees in 12 seconds and put him away with a flurry of vicious rights and lefts.

Lesnevich of Cliffside Park, N. J., weighed 184. Eatman, of Norwalk, Conn., weighed 196.

Lesnevich is a contender for the light heavyweight crown he lost to Freddie Mills of England and for the heavyweight throne vacated by Joe Louis on Tuesday.

**POP Goes the QUEEN**

By Bob Wade and Bill Miller

**THE STORY**: John Henry and Sin Conover, vacationing in the desert, are entangled in a mystery involving the "Queen," an 18th Century Spanish treasure galleon, which sailed up the flooded Colorado River and was stranded on the shore. The clue to the last ship are in directions given in cipher by the murder victim to Johnny. Sin's trick memory retains the directions and a mystery offers them to Barselou, who is holding the Conovers prisoner, if Sin is released. Barselou agrees, but after Sin is released Johnny is snugged as he tries to escape.

**JOHN HENRY** moaned and opened his eyes. Gray light, like a shower of pins, stabbed them and he shut them again. A slow fire was baking one side of his face; the other was ice-cold.

"Johnny, Johnny!" he could hear Sin's voice near him. "Darling—please wake up—oh, please—"

"Oh, darling!" Sin breathed from somewhere in back of him. "Thank God! I was so scared—"

His head began to clear. They were in some sort of dim vault under a low ceiling. Cardboard boxes of all sizes were stacked against the opposite wall. Down the center of the room ran a row of wooden pillars and, at eye-level above the cartons, were three small grimy windows. John Henry decided this must be the cellar under the Bar C Ranch.

"What's happened?" he managed.

"How's your head, honey?" John Henry moved it gingerly to and fro. "Holy cow!" he complained. "What a headache!"

"Try to sit up. Maybe you'll feel better."

He discovered when he tried it that his arms were asleep. They were bound in back of him. His legs, too, felt numb and a moment's careful focusing showed him his ankles had been tied together and then his legs doubled back. A rope connected his wrists with his ankles.

He wriggled to a sitting position, groaning en route. Then he wormed around to look at his wife. Sin had been similarly hobbled. Her red hair was mussed and her bright eyes had obviously held recent tears.

**JOHN HENRY** groped for memory. "Sin—what are you doing here? Why aren't you in Brawley?"

"Your poor head, honey!" Sin exclaimed, ignoring the question, her eyes fixed on the lump which showed through the matted brown hair.

"Never mind me," he commanded. "Just tell me what all happened."

Sin obediently repeated the gibing explanations she had gotten from Vernon when he had added John Henry to the basement prison. Vernon claimed the Conovers hadn't fooled him at all. When they had turned the Mercury toward Barselou's ranch, it had just saved him the trouble of an open fight. The bellboy had followed them quietly and listened outside the casino door. When Sin came out, he had shoved a gun into her spine and a cloth over her mouth. A few minutes later, she had been left, trussed, in the cellar—where she had been ever since. Vernon had then driven Faye Jordan's coupe around the drive and a short distance down the road to persuade John Henry that Sin had actually left.

The story didn't help John Henry's head at all. He sighed. "I should have left Faye Jordan alone," he admitted gloomily.

Sin didn't argue about this. John Henry wriggled around a bit and whistled a noiseless tune between his teeth. "But I don't think Faye knows anything about this ship business," he added suddenly.

"Well, then who was it that put something in your drink and searched you?" Sin demanded. "I thought it was Faye, all right."

**But why couldn't it have been that bartender of Barselou's?**

"Why'd they let you go then, honey?"

"I didn't have anything. Barselou still wasn't sure we were the right people," said John Henry.

"All that happened before you got caught with Barselou's maps. That put a clincher on our guilt."

"But we didn't know anything," Sin protested.

"We had the route to the ship—that's enough evidence for him," John Henry replied. "It just goes to prove that there's somebody else mixed up in this race for the Queen, all right."

"Mr. and Mrs. Jones?"

"Sure, Sin. I don't know where Robottom fits in but he thinks we're the Joneses. Barselou thinks we're the Joneses. Anglin was looking for them when he stumbled into our cottage by mistake."

John Henry's voice took on excitement. "That's it, Sin. There are two sides. Barselou on one and the Joneses on the other. Anglin was playing on both teams and didn't score anywhere. Barselou didn't kill him. So who did?"

"You want me to say the Joneses."

"Uh-huh. So the next big question is the Joneses. This is damned important, baby. Are they man and wife or a team of acrobats or what?"

He stopped. A scratching noise came from one of the high windows in the cellar wall across from them.

Sin gulped a couple of times and whispered, "What is it, honey?"

John Henry shushed her gently and kept watching the ground-level on the other side of the basement.

It was being shoved firmly from the outside. It stuck for a moment, then screeched inward and upward.

Crouched on the window sill, peering in at them curiously, was an animal. Behind a malevolent head with pointed ears, the creature's body filled the window. Its size made it impossible for the huge beast to be what it was. A gigantic black cat.

She was introduced by Mrs. Florence Vasconcellos, a member of the community service committee. Mrs. Lottie Hutchins, chairman of the committee, was absent due to illness.

Mrs. Beggs explained that \$2,100,000 will be needed to build a modern medical unit with 140 bed capacity. The federal government will furnish a third of this amount, \$700,000, the state of Illinois and a like amount must be furnished by the community. However, there is approximately \$300,000 on hand, which was raised several years ago, leaving the amount of \$400,000 to be raised at this time.

Mrs. Beggs stated that this is the largest allocation for a hospital made in the state. If completed as planned, this hospital will be the most modern, best equipped hospital outside of Chicago.

The Auxiliary calendar devotes the March meeting to community service. Mrs. Vasconcellos gave a brief summary of the many projects aided by the unit. A donation was made to the Trail Rangers of America.

## American Legion Head Asks Vets Raise Gift Fund

Washington, March 3—(AP)—Perry Brown, national commander of the American Legion, proposed tonight that the veterans' organization raise a \$400,000 endowment fund.

The interest on the fund, computed at 2 per cent, could be used to carry on the Legion's rehabilitation program, he suggested.

Part of the fund, he proposed, should be used to campaign against what he called "the trend against benefits for veterans."

The Legion now maintains some 18,000 rehabilitation centers as part of its work. These aid in processing veterans' claims, render advice, visit veterans in hospitals and perform other services. It was estimated by a Legion official that this program cost some \$300,000 annually.

# Warns Livestock Men To Protect America's Heritage Of Freedom

The spiritual and economic advantages "of a free people in a free land" in St. Louis Thursday were emphasized by Dr. George S. Benson, president of Harding College, Searcy, Ark., when he spoke to the livestock producers from Illinois, Missouri and Arkansas who attended annual meeting of the Producers Live Stock Marketing Association. Large delegations from west central Illinois attended the meeting which was held in the Jefferson hotel.

Roy Burrus of Jacksonville, president of the organization, presided. Those retiring members of the board of directors were reinstated.

Dr. Benson reviewed the great improvement that has been developed in the livestock industry, and briefly discussed the role of the stockman in "bringing a better standard of living to all of us."

Individualism Endangered

"There is a move on around the world which seeks to destroy the individual," the speaker warned. "Long powerful in the Orient, it is now sweeping Europe. England, the one nation which so long loved freedom has ceased to value that freedom. That is significant."

"How far are we on the road to totalitarianism?" he asked. "I feel that we are close enough that one more national crisis, say, a depression with high unemployment for any length of time, or a war, will be sufficient. For the man can run on a ticket to nationalize industry, and be elected," Dr. Benson declared.

"Weak men sneer 'what's freedom? Can you eat it?' I say 'Yes!' In no other economy are the people so comfortable. Why is it that the people of the United States, who make up only one-sixteenth of the world's population, own four times as many automobiles? Why is it that this same group send more of their children to high school and college than all the rest of the world combined?"

Benefits Of Freedom

"Perhaps it's because in a system of free enterprise a man can be a dreamer, a seeker after better things; because we can compete with anybody; because competition compels keen management and because keen management provides the tools to make things," he continued.

In his conclusion, the president of the small Arkansas college admonished his listeners "to teach your children the benefits and blessings of this land and to instill in their souls a love for freedom."

New Records Attained

During the morning session Manager H. D. Wright reported on the year's activities of the 27-year-old marketing cooperative. Volume, over 70 million dollars, set a new record. The association handled 645 cars for its best customer, Pike county. Morgan county ranked eighth in the state, one notch below Greene county and one above Sangamon.

Re-elected directors were J. H. Fehsenfeld of Troy, Mo., Lawrence Todd of Harvel, Ill., and W. E. Williams of Garland City, Ark.

M. O. Cullen of the National Livestock and Meat Board gave a meat cutting demonstration which illustrated the board's program of helping retailers sell more meat by making it more attractive, plus, lower priced, through the elimination of waste.

## Cass Speaker Asks 'Why Won't Men Attend Church?'

Virginia—Eighty-seven of Virginia's men assembled Wednesday evening in the recently remodelled basement of the Presbyterian church for a dinner and evening of fellowship. The Rev. Barton Hunter of West Bluffs Christian church of Peoria was the principal speaker.

The purpose of this Ash Wednesday dinner, planned by the laymen's commission of the churches and served by the ladies of the Presbyterian church, was to get the men of the several churches together and talk over ways of recreating interest by the men in their church and in church attendance. The beginning of the Lenten season was selected for the dinner and Rev. Hunter's address was along the line—"why are the men willing to dig into their pockets, but not into their time to help their church?"

A forum led by H. M. Knight, followed the address. The men were invited to give the answers and to speak quite frankly on why men are reluctant to attend church services and ways of encouraging more attendance by men at their respective churches on Sunday.

The discussion included several suggestions to the men on how they might spend the Lenten season.

It was decided that another such dinner should be held in four weeks, probably at the Christian church, on Wednesday evening, March 30, and it is hoped by the laymen's commission that even more interest might be shown then. A capable speaker will be invited and plans for the annual Easter breakfast will be completed by the group.
